

New Providence Baptist Church
Evening Bible Studies
(Feb. 24-Mar. 31, 2010)

Study Descriptions

- **The Book of Galatians**
 - In this six week overview of the book of Galatians you will discover how the Apostle Paul reveals how grace frees the Christian from law, not that we might sin, but that we might discover a new power for righteous living through faith and the Holy Spirit. You will learn the futility of struggling in your own strength to do what is right and you will also discover the freedom of being renewed from within and so enabled by God to become the person that God has called you to be.
- **Building A Marriage that Really Works**
 - In this six week study designed for couples and those aspiring to be married, you will discover how to establish and maintain the kind of marriage God intended for you to have--one that should last "until death us do part." You will consider the question, "How can I follow God's design for marriage in our modern-day world?" You will look at the institution of marriage, and the roles of the husband and the wife, as well as examine key principles regarding communication, love, and finances.
- **Forgiveness: Breaking the Power of the Past**
 - In this six week study you will learn how forgiveness not only cleanses your soul and frees your mind but also unlocks the chains that hold you captive to the person who wronged you. You will learn how to unleash the power of forgiveness in your life, letting it propel you out of painful and awkward situations and freeing you from the pain of the past.
